Fund Update

The Fund outperformed the benchmark over the quarter. Its small cap tilt was rewarded in the market environment. In terms of sectors, stock selection within industrials was a key positive contributor (underweight Safran, Airbus; overweight Thales). Stock selection within energy was also helpful (overweight Gaztransport et Technigaz). Stock selection within financials benefitted from an underweight to Edenred. However, stock selection within consumer staples (underweight L'Oreal) and consumer discretionary (underweight LVMH, Hermes) detracted. Stock selection within health care was also ineffective (underweight EssilorLuxottica).
